Hi Yoram,

Sure thing, no problem re sharing our name as an ecosystem partner. Similarly, can we get your support with the SDG Accelerator we're launching with UNDP in 10 days? Would be good to have you deliver a session to the cohort on cybersecurity etc and we can publicize our collab on social media, maybe even mentor a company or two if you think it makes sense for you. What do you think?

Re demo, let me schedule that and get back to you.

Best,
Ahmed

Hi Ahmed,

For my side sure.

For "session to the cohort on cybersecurity", Dan I guess this is for you.

Thanks,

Yoram

Hi Check Point team,

As promised, I'm sharing a draft of the MOU for your review. Please review and add any comments or suggestions via track changes.

More details regarding the program structure and your session timing will follow in the next few days. We'll make sure to coordinate everything well in advance.

Warm regards,
Katarina Antić

Hi Check Point team,

I hope you're doing well. I wanted to follow up on the draft MOU I shared earlier and check if you've had a chance to review it.

Please feel free to share any comments or suggestions via track changes when convenient.

More details about the program structure and your proposed session timing will follow in the next few days.

Looking forward to hearing from you.

Dear Check Point Team,

Thank you for the update.

We understand that the MoU signing process may take some time due to internal legal procedures. In the meantime, to move forward efficiently, here's a summary of the core collaboration points based on our mutual discussions:

Check Point's Contributions:

- One hour of pro-bono technical advisory per participating team in the SDG Blockchain Accelerator.

- One introductory, pro-bono one-hour coaching session to the full cohort.

- Social media and promotional support to amplify program visibility.

In Return, Check Point Receives:

- Recognition through EMURGO Labs' official communication channels, including partnership announcements and highlights of your contributions and involvement.
  Please feel free to suggest edits or additions.

Regarding your Catalyst Milestone 4 demo and feedback session, we have checked internally and would like to propose **Wednesday, July 9th at 12:00 PM CET** for the session with Dan and our team.

Would that time work on your side?

Looking forward to your feedback.

Best regards,

Katarina Antić
Project Manager

Dear Check Point Team,

I hope you are doing well.

As we enter the active phase of the **SDG Blockchain Accelerator – Cohort 1**, we would like to follow up on the **introductory, pro-bono one-hour coaching session** for the full cohort that we previously discussed. We're looking forward to scheduling this session and would appreciate it if you could share your availability so we can coordinate accordingly.

Also, regarding the **Catalyst Milestone 4 demo and feedback session**, we had proposed Wednesday, July 9th at 12:00 PM CET for the session with Dan and our team. As that date has passed, we'd appreciate it if you could suggest a new time that works for your team.

Looking forward to your response, and thank you again for your continued support.

Best regards,
Katarina Antić
Project Manager

Hey Katarina,
Sorry for the late reply.
I am happy to do the coaching sessions. I can do Sunday- Thursday 9am IL or if you have specific time slots, please
share and I will let you know my availability. For the demo, When is a good time? (past July 9th).

Thanks!
Dan

Hi Dan,

Thank you for getting back to me!

I've checked with the participants and unfortunately, the originally proposed time doesn't work for most of them. We'd like
to schedule the workshop for **Thursday, 31 July at 2:00 PM CET**, as that time suits the majority.
Could you please let me know if that time works for you as well?

Regarding the demo, here is the **link** to choose and schedule a time that works best for you.

Looking forward to hearing from you.

To: Katarina Antic <katarina@emurgolabs.io>

Hey Katarina,

Is this one joint session for all the teams together? I can do 30 minutes 31st July 14:00 - 14:30, or if convenient, I can do an hour if we start 30 minutes earlier (13:30-14:30).

Best,
Dan

To: Dan Danay <danda@checkpoint.com>

Hi Dan,

Yes, this will be a joint session for all the teams together. Starting 30 minutes earlier works perfectly. We'll begin at 13:30 and hold the full 1-hour session until 14:30 on July 31. I will send the meeting invite shortly.

As this is a technical workshop, we'd love for you to focus on your domain of expertise at Checkpoint, particularly around cybersecurity best practices for blockchain-based platforms and secure architecture for decentralized applications.

Looking forward to the session!

Best regards,

Katarina Antić
